THANT ZIN TUN

Junior Data Analyst

thantzintun523@gmail.com | +44 7464 151418 | linkedin.com/in/thant-zin-tun303

PROFESSIONAL PROFILE

MSc Data Science graduate with Distinction and practical experience transforming complex datasets into meaningful insights through data cleaning, analysis, visualization and reporting. Proficient in Python, SQL, Power BI and Excel, with experience analyzing data quality, identifying trends and communicating findings to both technical and non-technical stakeholders. Strong analytical mindset developed through industry experience in banking and enterprise systems, complemented by hands-on academic projects in machine learning and predictive analytics. Seeking a graduate Data Analyst role where I can contribute to data-driven decision-making while continuing to develop technical and business analysis skills.

TECHNICAL SKILLS

Programming & Analysis	Python (Pandas, NumPy, Matplotlib), SQL, Microsoft Excel, Power BI, Tableau
Data Skills	Data Cleaning & Validation, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, Data Transformation, Reporting
Machine Learning	Scikit-learn, TensorFlow, KNN, LSTM, GRU, Time-series forecasting, Model evaluation and federated learning
Tools & Delivery	Git and version control, Jira, UAT, defect analysis, and stakeholder communication
Testing & QA	User Acceptance Testing (UAT), Defect tracking, Root cause investigation, Test execution, Validation testing

EDUCATION

Master of Science in Data Science (Distinction) *Sep 2024 - Oct 2025*

Leeds Beckett University

Bachelor of Science in Computing (First-Class Honours) *Dec 2017 - May 2022*

University of Greenwich

PROFESSIONAL EXPERIENCE

UAT Analyst | KBZ Bank *Mar 2023 - Apr 2024*

- Analyzed user acceptance testing results and defect data to identify recurring issues and validate business requirements.
- Executed SQL queries to validate transactional data across multiple banking workflows, identifying data discrepancies and supporting successful UAT sign-off.
- Reviewed system outputs to ensure data accuracy, consistency and compliance before software releases.
- Built and maintained defect-tracking reports in Jira/Excel, giving stakeholders visibility into testing progress across each release.
- Collaborated with cross-functional teams of developers and business analysts to validate fixes and support successful software releases.
- Contributed to the successful delivery of 5 banking system releases through accurate testing, defect analysis and timely validation of resolved issues.

IT Intern (Data Analysis & Systems Support) | Manulife Myanmar Life Insurance *Jul 2022 - Mar 2023*

- Supported the implementation and maintenance of enterprise software systems across business functions.
- Validated data across enterprise systems, reviewing hundreds of records to improve data accuracy and support system implementation.
- Investigated user-reported issues and worked with technical teams to resolve software and system problems.
- Prepared technical documentation and maintained accurate system records to support daily operations.
- Supported successful system implementation projects while gaining practical experience with enterprise data and business processes.

SELECTED DATA SCIENCE PROJECT

AI for Indoor Air Quality Forecasting | MSc Dissertation

- Collected, cleaned and analyzed multivariable environmental sensor data using Python, Pandas and exploratory data analysis techniques to create analysis-ready datasets.
- Developed and evaluated KNN, LSTM, GRU, Kalman Filter hybrid and Federated Learning models using TensorFlow and Scikit-learn.
- Assessed model performance using RMSE, MAE and R^2, presenting findings through clear data visualizations created with Matplotlib.
- Achieved the highest forecasting accuracy using Kalman Filter-enhanced models while demonstrating the potential of Federated Learning for privacy-preserving distributed analytics.

CERTIFICATION & ADDITIONAL INFORMATION

Certification: Google Data Analytics Professional Certificate, Data Analytics Job Simulation at Deloitte
Right to work: Available upon request
